1 November 1982

MEMORANDUM FOR THE RECORD

SG1I

FROM: [REDACTED]
Chief, Operations Branch
SUBJECT: Grill Flame

1. The Grill Flame exercise between Viewer 01 and [REDACTED] SG1A was concluded circa June 1982 since [REDACTED] was proceeding to an SG1A overseas assignment. The original intent of the exercise was SG1A two-fold--a) establish real time remote contact with [REDACTED]; b) SG1A influence [REDACTED] during his technical inspections.

2. Based on the attached memorandum, I do believe real time remote contact was established. Considering this progress, there is no reason to doubt objective b could not be obtained, time permitting.

3. Time and personnel permitting, I would like to pursue this approach using another of our stateside engineers.
